WANTED DEAD OR ALIVE

A TRIBUTE TO THE MUSIC OF
BON JOVI

An authentic acoustic tribute to one of rock's most iconic bands. The songs. The energy. The experience.

As a recording artist, Jeff has released original music and collaborated with some of rock's most respected musicians, including recording Foreigner's "Juke Box Hero" with Tesla guitarist Frank Hannon.

In 2026, Jeff and his band Liquid Skye signed with Darkstar Records, ushering in an exciting new chapter with the release of new music and the rebirth of the band that started it all.

Whether fronting a full band, performing acoustically, or writing and recording new music, Jeff Carlson brings authenticity, passion, and a genuine love for rock and roll to every stage he steps on.

“Jeff Carlson is one of the hardest working, talented and undiscovered musical artists I know. Beyond being a nice guy, his personality shines through his music. 'Juke Box Hero' is the perfect song for him to cover as the story of the song fits his personal story perfectly. I'm proud to play on this track with Jeff Carlson and his band.”
